

# Starfish Conference

15th – 16th May 2010

Helsinki, Finland

# Starfish Conference

**Come and find a new perspective about how God works in our time. Starfish Conference in Helsinki 15th-16th May at Laajasalo Christian Institute.**

**We are living an era where many have the opinion that Christian faith has to constantly defend itself. Even though this seems to be true for many churches, the actual fact is that on a grass root level God is doing new things globally. God's Kingdom is breaking through at many levels. The main speaker for the conference is Wolfgang Simson, the author of a newly published book about the Kingdom of God called Starfish.**

**You are welcome to join us to receive radical teaching about what it means to live in God's Kingdom truly in your own life. The cost for two days is 50 e, including catering. Register now- there is a limited amount of places! The conference will be translated into Finnish.**

**Registration by 30th April 2010.**
